

ATTILA

EXTRA STARK

Intensive power cleaner against burned material

Area of application

For the quick, reliable and intensive cleaning of extremely heavily soiled equipment and utensils used in kitchens and food processing areas:

- Convection ovens and combi steamers
- Grills and ovens
- Stoves and range hoods
- Tilting frying pans / fryers

Application

Spray the ready-to-use product onto the surface to be cleaned by using the spraying attachment (with lance extension). Wait between 10 and 30 minutes for the product to take effect, depending on the degree of soiling. Heat the device to a maximum of 50° C in case of extreme soiling (convection ovens without steam). Rework with drinking water.

Product characteristics

- Efficient spontaneous release for the fastest effectiveness
- Extreme performance against baked-on frying, baking and grilling leftovers
- Excellent adhesion to vertical surfaces
- Easy to apply thanks to the ergonomics formula
- HACCP Certificate is available

Technical information

Carton of 2 x 1 litre bottles spray attachment and lance extension order No. 00230
