

DR.SCHNELL

The PUROL N System

The high-performance, material-friendly product range for the professional exterior cleaning of rail vehicles

INNOVATIVE

ECO-FRIENDLY

HIGH-PERFORMANCE

NON-CORROSIVE

- Neutral formulas - free from acids and alkalis
- Gentle on materials and non-corrosive for vehicle components and washing systems (coating systems, metal components, sealants)
- Excellent cleaning performance thanks to state-of-the-art, environmentally friendly ingredients
- 100 % biodegradable
- Free from VOC solvents, silicones, EDTA, NTA, APEO, LAS and AOX

- Tested and certified in line with stringent Nordic Swan Ecolabel requirements
- Suitable for biological wastewater treatment plants
- Cost-effective cleaning due to minimal use of chemicals during physicochemical wastewater treatment

The innovative solution for a cleaner future by rail.

The PUROL N System offers the right solution for every exterior vehicle cleaning requirement.
