Innovation since 1831.

David Schnell founded his soap works in Munich in 1831. From the very beginning the company embarked on a dynamic path of growth. Innovative ideas have always formed the foundation on which DR.SCHNELL has built its success. Environmentally conscious. Responsible. Delivering outstanding results with every cleaning task.

The DR.SCHNELL Management Team (left to right): Eric Paffrath, Dr Thomas Schnell & Sascha Adjaj

By people. For people.

DR.SCHNELL – A family-owned company

DR.SCHNELL remains a family business to this day. A company defined by clear values, high standards and even higher ambitions. Our aim is to transform hygiene and cleaning by making them more innovative, more environmentally friendly and more responsible.

Today, we are one of Europe's leading providers of integrated hygiene solutions. From premium branded products such as the renowned MILIZID sanitary cleaner and digital solutions to professional training and development, DR.SCHNELL with its almost 500 employees places pioneering innovation and the individual needs of its customers at the heart of everything it does.

What drives us beyond that? Our vision – ambitious and future-focused: We want to set the benchmark for responsible hygiene across the European market.

The values that drive us.

1

Personal relationships

At DR.SCHNELL, we value relationships built on trust, both within our company and with our customers. Our goal is to foster genuine human connections and long-lasting partnerships. How do we achieve this? Through dedicated contacts who combine exceptional expertise with personal accessibility and on-site support.

2

Sustainable innovation

As sustainable as possible! We are committed to developing innovations only when they are more environmentally responsible and more effective than the products they replace. This principle is part of DR.SCHNELL's DNA and is deeply embedded in everything we do. It guides our decisions and reflects our commitment to ethical, long-term business practices.

3

Made in Germany

Responsibility is part of who we are. Responsibility towards people and the environment, society and future generations. At DR.SCHNELL, everyone embraces that responsibility, every day. We also regard Germany as a place of production as a conscious responsibility. It reflects our heritage. It stands for quality. That is why, with only a few exceptions, we develop and manufacture the vast majority of our products in Germany.

Hygiene begins with trust.

We are far more than a manufacturer of cleaning products

DR.SCHNELL is your versatile partner in professional cleaning – whether in transport cleaning, facility cleaning , laundry or kitchen hygiene.We focus not only on outstanding produc t quality but also on improving your processes through intelligent solutions that enhance efficiency and productivity. Why? Because we are far more than a manufacturer of cleaning products. You can rely on us as a holistic partner, providing safe hygiene and service solutions tailored to your industry.

We support you every step of the way – exactly as you need us to. Discover our complete portfolio: from premium-quality products and digital solutions to state-of-the-art application technology, tailored technical support, and professional hygiene training and development. Look forward to exactly what you need.

Certified! We offer you safe products for clean means of transportation.

Our products are qualified and listed by Deutsche Bahn AG (DB Guideline Ril 910) for use on and in vehicle parts and materials.

VOC-free products contain no volatile organic compounds, thereby contributing to environmentally and health-conscious cleaning.

The Nordic Swan ecolabel is awarded to products and services that meet strict environmental criteria as well as the UN Sustainable Development Goals.

Established in 1992, the EU Ecolabel is a trusted environmental label for products and services that meet strict environmental standards.

DR.SCHNELL in transport cleaning.

A success story

60 years of DB partnership: Since its beginnings as Munich-based soap factory Dr. Josef Schnell K.G., Deutsche Bahn has been a partner for vehicle cleaning, initially as a customer for industrial hand cleaner (1963) and liquid interior cleaner (1965). Schnell's trial product from October 1972 (VPS 1072) became the first product for petroleum-free bogie cleaning to be subsequently launched on the market.

The glycol-based product dispensed with non-water-soluble organic solvents, thus protecting the waste water. DR.SCHNELL has been working with Deutsche Bahn for decades to develop environmentally friendly, resource-conserving and safe products for effective vehicle cleaning. This is supported by constant exchange with a close-knit network of leading manufacturers and companies in the railway industry.

Milestones in transport cleaning

1963
Deutsche Bahn becomes a customer for hand cleaner and liquid interior cleaner

1972
VPS1072 - Special product forDeutsche Bahn for glycol-based bogie cleaning

1992
Introduction of alkaline (PUROL) and acidic (RAPOL 58) exterior vehicle cleaners

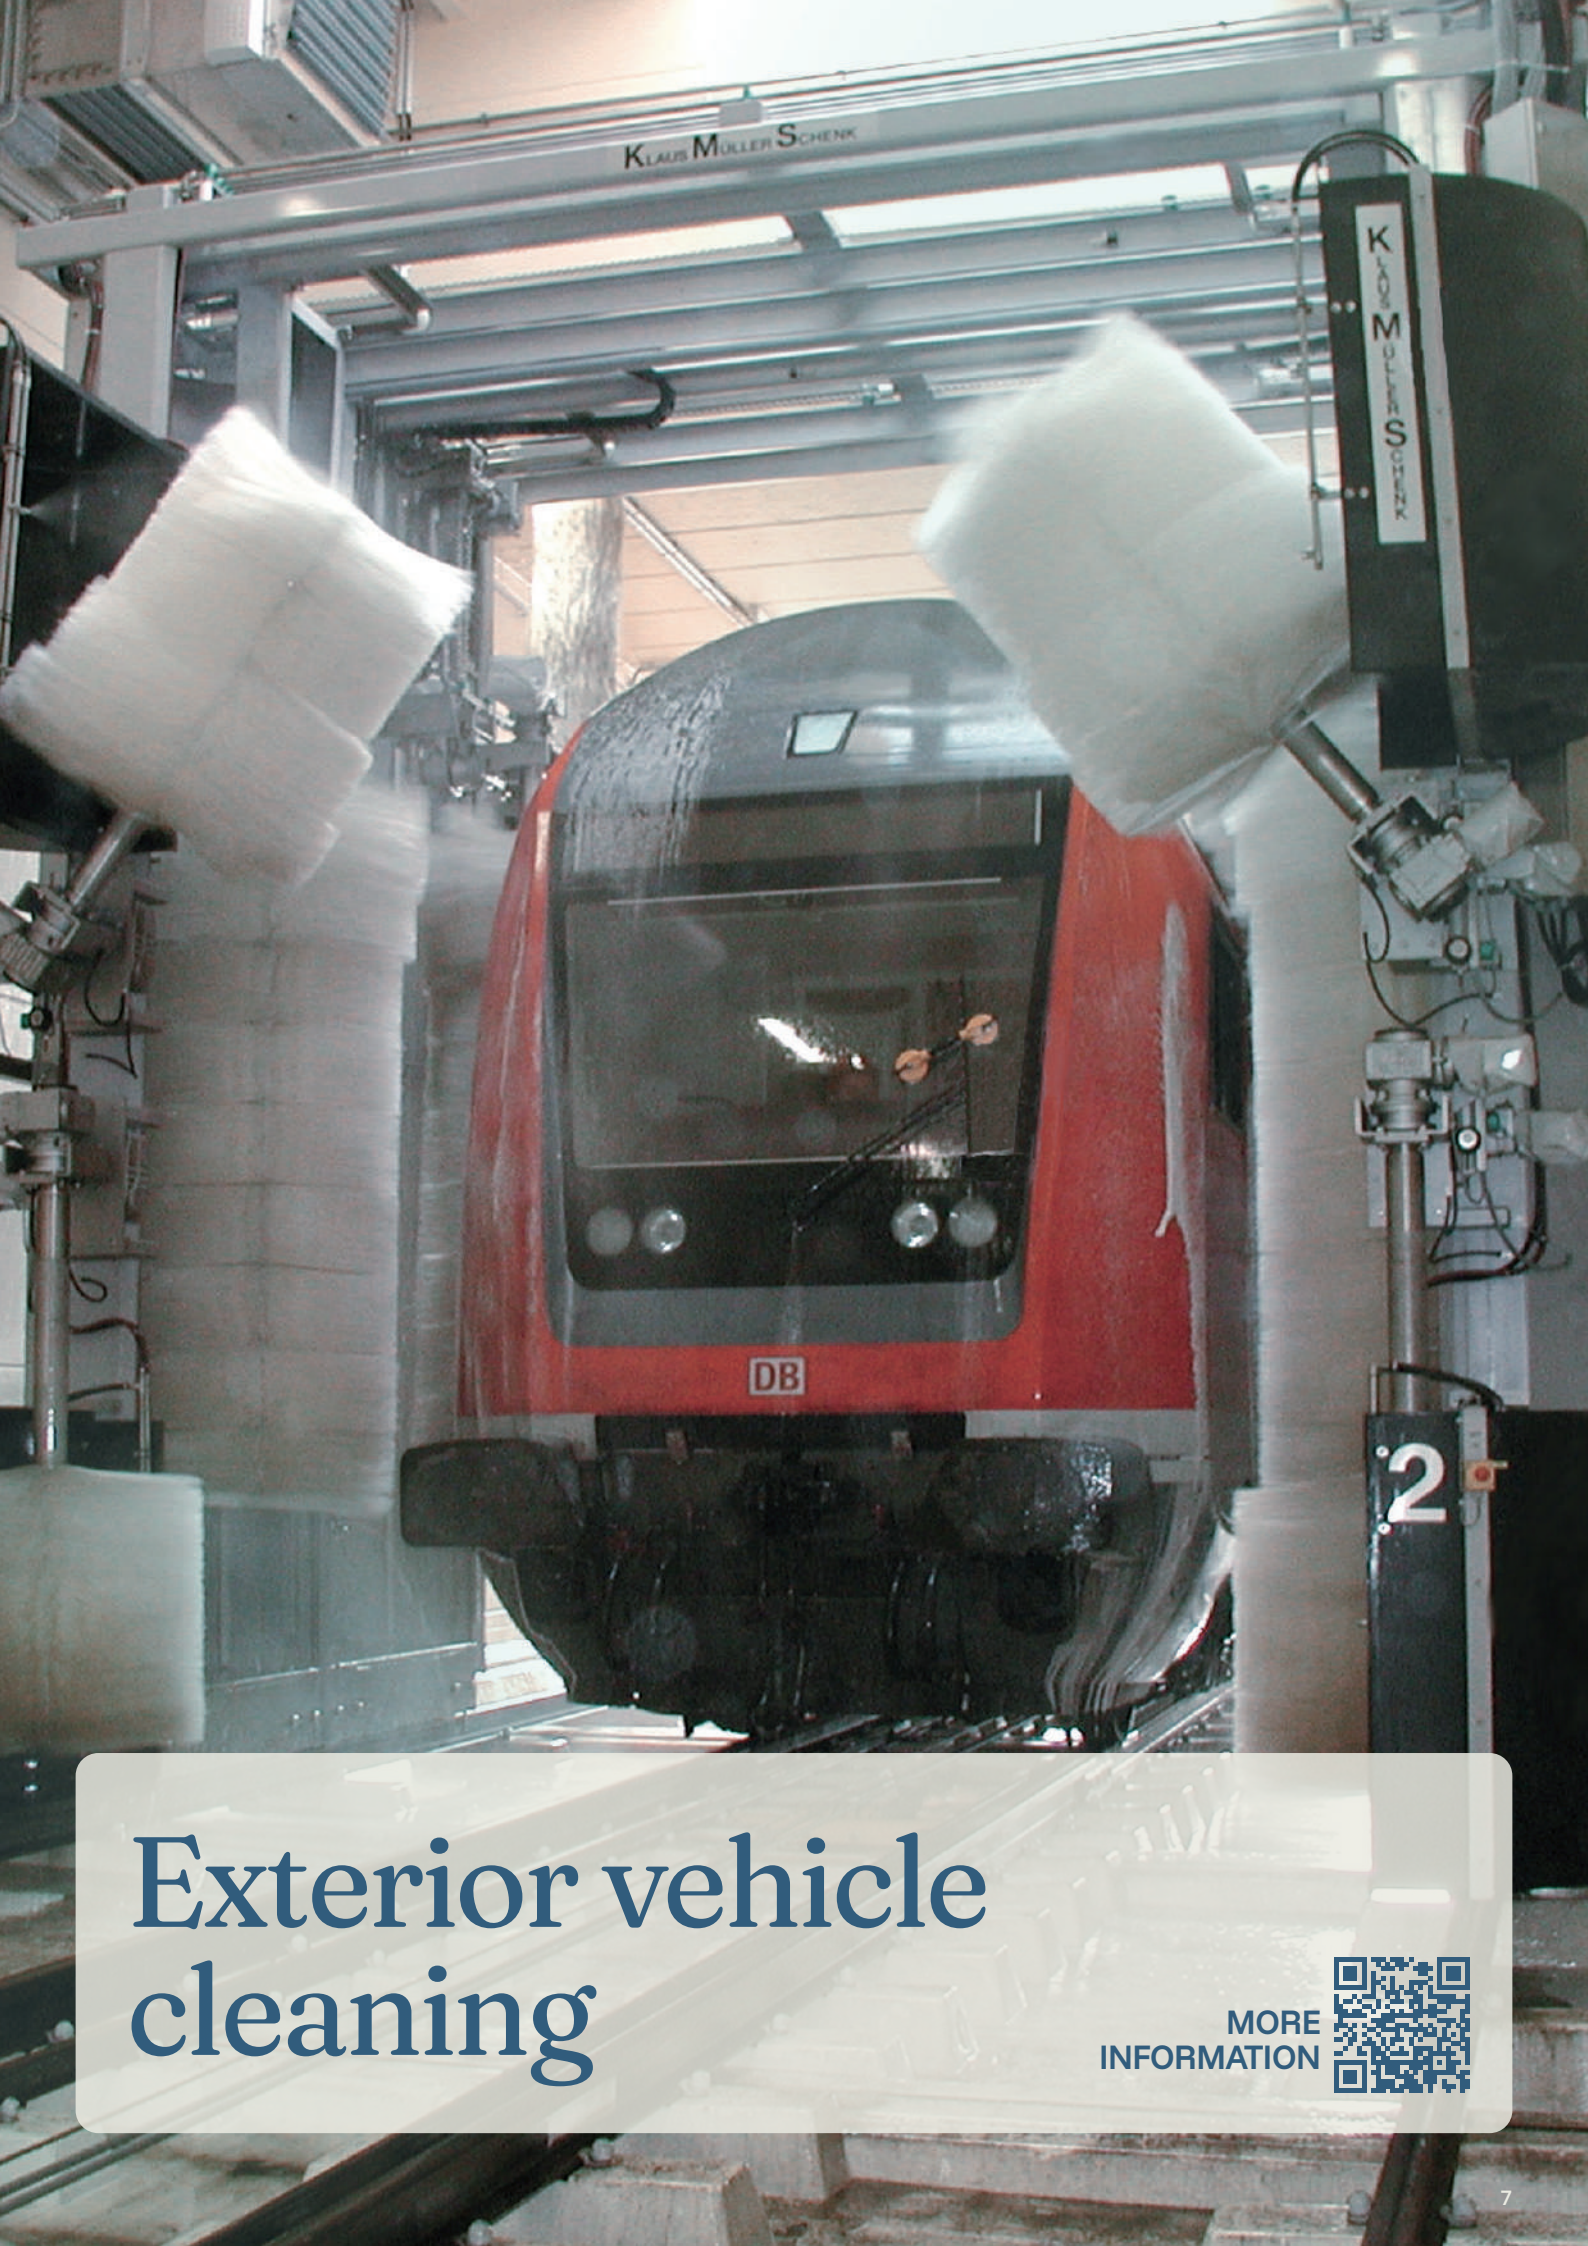

1998
Introduction of FORINET as a safe, neutral cleaner for vehicle interiors

2004
SC Anti-Graffiti-System is launched

2018
Introduction of the neutral PUROL N System

2024
DR. SCHNELL becomes the first producer of neutral exterior vehicle cleaners with a Type I ecolabel in Germany

2026
Membership of the Association of the German Railway Industry (VDB) eV

Exterior vehicle cleaning

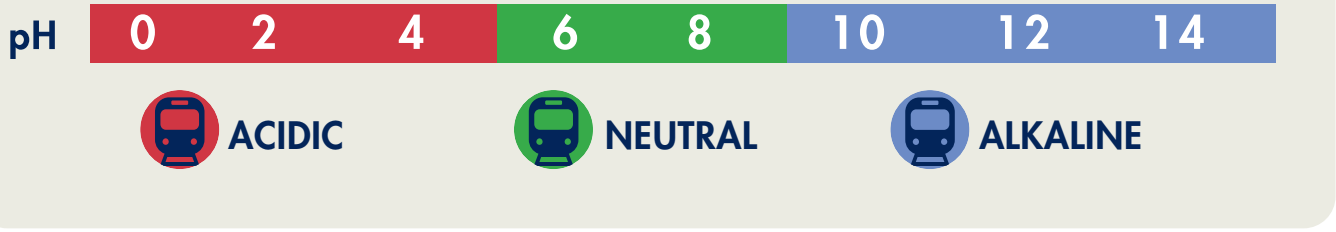

MORE INFORMATION

Exterior vehicle cleaning.

Sparkling results through tailor-made cleaning solutions

There are high expectations and demands when it comes to the external appearance of railway vehicles for transporting passengers. The vehicles – for long-distance transport (ICE trains), local transport (regional trains) and urban transport (trams, suburban and underground railways) – must be kept clean for passengers. Each year, millions of euros are spent on cleaning and removing vandalism-related damage in order to meet this requirement.

DR.SCHNELL has developed a product range precisely tailored to the requirements of timely cleaning and maintenance of railway vehicles. The design of modern trains and their bright exterior paintwork require short cleaning intervals, for example. The basic requirements for all products are the best possible protection of natural resources, maximum material compatibility and of course the safety of cleaning personnel in terms of health effects.

RAPOX OS
Oxalic acid-based exterior vehicle cleaner

Powerful acidic combination for effective, rapid removal of inorganic vehicle dirt such as brake dust and copper wear. Free from hydrochloric acid.

1.000 kg container
Order No. 40112
Tanker, loose kg
Order No. 40113

RAPIDOL OS
Phosphoric acid-based exterior vehicle cleaner

The high phosphoric acid content enables easy removal of inorganic vehicle dirt such as brake dust and copper wear. Free from hydrochloric acid.

1.000 kg container
Order No. 40079
Tanker, loose kg
Order No. 40079
Order No. DRS00560

RAPOL 58
Hydrochloric acid-based exterior vehicle cleaner

For acidic intensive cleaning of vehicles, particularly for heavy mineral-based dirt. The high hydrochloric acid content enables deep removal of burnt-on brake dust and stubborn hard water deposits.

20 kg canister
Order No. DRS00169
200 kg barrell
Order No. 40023
1.000 kg container
Order No. 40025

PUROL
Mildly alkaline exterior vehicle cleaner

For maintenance and basic cleaning of moderately contaminated vehicles. Easily and quickly removes all typical vehicle dirt including insect residue. Free from caustic alkalis.

20 kg canister
Order No. DRS00171
200 kg barrell
Order No. 40092
1.000 kg container
Order No. 40090
Tanker, loose kg
Order No. 40089

KLARSICHT365
Neutral all-season windshield cleaner with frost protection

Ready to use, for year-round use in automatic windshield washer systems. Removes insect residue, grease, and environmental grime from the windshield. Frost protection down to at least -30°C. Gentle on materials and hazard label-free.

10 kg canister
Art.-Nr. DRS01444
200 kg barrell
Art.-Nr. DRS01445
1.000 kg container
Art.-Nr. DRS01446

PUROL N System.

The powerful, material-friendly product range for professional exterior cleaning of rail vehicles

- Neutral formulas - free from acids and alkalis
- Gentle on materials and non-corrosive for vehicle components and washing systems (coating systems, metal components, sealants)
- Excellent cleaning performance thanks to state-of-the-art, environmentally friendly ingredients
- 100 % readily biodegradable
- Free from VOC solvents, silicones, EDTA, NTA, APEO, LAS & AOX
- Suitable for biological wastewater treatment plants
- Cost-effective cleaning due to minimal use of chemicals during physicochemical wastewater treatment

PUROL N PRO
Neutral maintenance cleaner

Excellent cleaning results for daily vehicle cleaning. Removes all typical vehicle dirt such as soot, grease, oil and brake dust.

20 kg canister
Order No. DRS00167
200 kg barrell
Order No. 40123
1.000 kg container
Order No. 40121
Tanker, loose kg
Order No. 40122

PUROL N EXTREM
Neutral intensive cleaner

Extraordinary cleaning performance, specially designed for stubborn dirt. Removes all typical vehicle dirt as well as insect residue from vehicle fronts.

20 kg canister
Order No. DRS00166
200 kg barrell
Order No. 40128
1.000 kg container
Order No. 40126
Tanker, loose kg
Order No. 40127

PUROL N GLANZ
Neutral rinsing agent

Wets the entire vehicle surface and encourages even drying of the water film. Shiny, streak-free cleaning results, even with hard water.

20 kg canister
Order No. DRS00179
200 kg barrell
Order No. DRS00032
1.000 kg container
Order No. DRS00033

PUROL N DRY
Ready-to-use neutral cleaner for manual vehicle cleaning

Mobile cleaning system with a ready-to-use formula combined with pre-soaked textiles for manual exterior vehicle cleaning without dripping. Versatile for use in any location.

10 kg canister
Order No. 40130

The innovative solution for a cleaner future by rail.

NORDIC SWAN ECOLABEL
5013 0136

Tested and certified in line with stringent Nordic Swan Ecolabel requirements.

The PUROL N system offers the right solution for every requirement in exterior vehicle cleaning.

Graffiti removal

MORE INFORMATION

Graffiti removal.

The highly effective DR.SCHNELL SC Anti-Graffiti-System

Buses, trains, truck tarps – large surfaces attract graffiti artists, causing millions in damage each year. Tough demands make graffiti removal a particular challenge. Spray paint needs to be removed without a trace from the exterior while preserving the vehicle paint and material.

Inside, where markers or fibre-tip pens stain surfaces and upholstery, special cleaners are required that evaporate quickly and without odour. All of our graffiti removal products are free from NMP/NEP and orange terpenes (significantly reduces risk of allergy).

SC GEL
Gel graffiti remover, odourless

For graffiti removal on smooth and porous surfaces on the inside and outside of buildings and vehicles. Excellent effect thanks to the gel formula with long staying power on vertical surfaces.

Box of 6 x 500 ml bottles
Order No. 00584
5 L canister
Order No. 30585
10 L bucket
Order No. 30579

SC FLÜSSIG
Liquid graffiti remover, odourless

For graffiti removal on smooth and porous surfaces on the inside and outside of buildings and vehicles. Liquid formula for rapid dissolving and for use after applying SC GEL.

Box of 6 x 500 ml bottles
Order No. 00589
5 L canister
Order No. 30588
Kanister à 10 Liter
Order No. 30587

SC SENSITIV
Graffiti remover
for sensitive surfaces

For material-friendly removal of small graffiti and ink markers on sensitive, smooth surfaces. Residue-free and easy application with spray bottle. Hazard-label-free formulation.

Box of 6 x 500 ml bottles
Order No. DRS00065
5 L canister
Order No. DRS00225

SC BITUMEN
Bitumen remover

For removal of paint/dirt based on tar/bitumen. (Tar and bitumen can be recognised by their softer consistency and brownish discolouration when solvating.) Suitable for cleaning vehicles and buildings.

5 L canister
Order No. 30583

SC SCHATTEN
Shadow remover

Specially designed for removing old, resistant paint residues ('shadows') from absorbent and porous surfaces without interim cleaning after using SC GEL or SC FLÜSSIG. Extremely strong dissolving power.

5 L canister
Order No. 30582

SC GEL EXTRA
Highly effective universal graffiti and dispersion paint remover

For graffiti removal on smooth and porous surfaces on the inside and outside of buildings and vehicles. Powerful on all types of graffiti, particularly dispersion paint. Gel formula for optimum application on vertical surfaces.

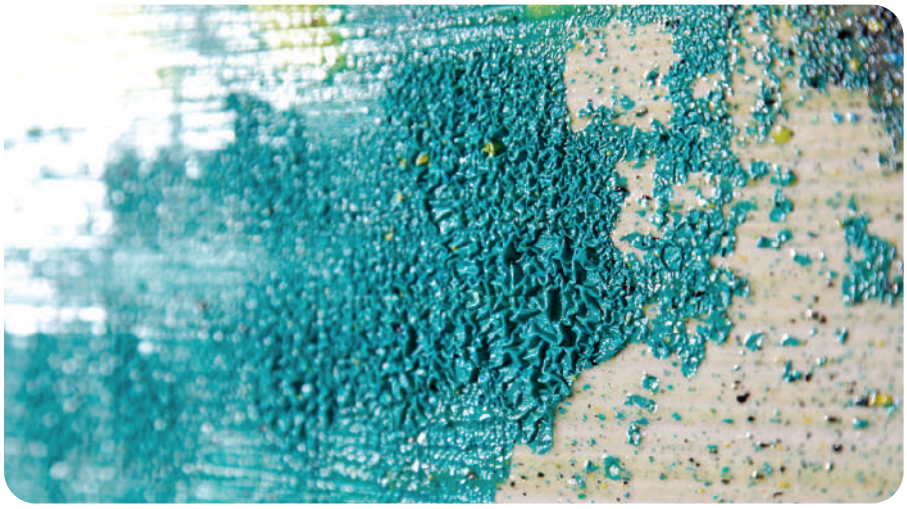

10 L bucket
Order No. 30578

SC FASSADEN GEL
Powerful graffiti remover
for buildings

For pore-deep graffiti and shadow removal on mineral surfaces. Extremely strong dissolving power. Not suitable for painted or metal surfaces. Viscous product formulation ensures good adhesion on vertical surfaces and extends the working time.

10 L bucket
Order No. DRS01000

Interior vehicle cleaning

MORE INFORMATION

Surfaces and floors.

Drive clean, drive better

The range of materials in a small space is large, time is short and the demand for material compatibility and short exposure times is high. And you're in the middle. Cleaning the fixtures and floors requires careful product selection in order to remove all kinds of contamination while optimum material compatibility and preservation are important criteria.

FORINET ECO
Ecological interior cleaner

Highly effective neutral cleaner for all coated and non-coated waterproof floors as well as smooth and textured surfaces in all interior areas including glass, plastic, paint and faux leather. Hazard-label-free formulation.

Box of 12 x 1L | Order No. DRS00786
10 L canister | Order No. DRS00787
200 kg barrel | Order No. DRS00808
1.000 kg container | Order No. DRS00809

GLASFEE ECO
Ready-to-use, eco-friendly quick surface cleaner

Cleans quickly and gently, leaving all shiny, water-resistant surfaces streak-free. Completely removes dirt deposits and grease traces. Radiant cleanliness and shine – no wiping required.

Box of 20 x 500 ml spraybottles
Order No. 00989
Box of 12 x 1 L
Order No. 00990
10 L canister
Order No. 30995

ONEMÜ 2000
Neutral universal cleaner and washing-up liquid

For manual cleaning of crockery, cutlery and glasses, for window cleaning and cleaning of all waterproof surfaces and textiles. Effortlessly removes grease/ oil residue and food residue. Odourless, gentle on skin and free from colourants.

Box of 12 x 1 L
Order No. 00123
10 L canister
Order No. 20067

FLOOR EXPERT
Neutral floor cleaning care

For effective cleaning and care of all waterproof coated and non-coated, elastic hard floors. With antistatic effect. Polishable. Streak-free shine.

Box of 12 x 1 L
Order No. 00276
10 L canister
Order No. 30247

TOP CARE FLOORFIT
Glossy multi-purpose dispersion

Suitable for all waterproof floor coverings. Produces self-shining, non-slip care film. Not suitable for wet areas or water-sensitive surfaces.

Box of 12 x 1 L
Order No. 30881
10 L canister
Order No. 30878

TOP CARE MATT
Semi-matte universal dispersion

For all waterproof, non-conductive floor coverings such as elastic hard floor coverings, absorbent natural and artificial stone. Easy workability, fast-drying and smooth finish. Ideal for heavily frequented areas.

10 L canister
Order No. 30880

TEMPEX FORTE
Multi-purpose cleaner and decoater

Universal basic cleaner for thorough removal of wax and polymer dispersion films. Special combination of active ingredients, good wetting properties, ideal for challenging cleaning work.

10 L canister
Order No. 30872

Carpets and upholstery.

From spot to spotlessly inviting

Carpeted floors and seats with textile coverings are synonymous with the transport sector. High-quality, coloured carpets are often used in long-distance trains as a durable and robust floor covering. They have to stand up to lots of wear, street dirt and shoe wear as well as food residue, spilt drinks or trodden down chewing gum. Upholstery needs to undergo regular stain removal and intensive cleaning at periodic intervals. DR.SCHNELL products enable the short breaks between train journeys to be optimally used for efficient cleaning.

QUICK TRIC
Surfactant-free concentrated cleaner

For cleaning textiles and waterproof surfaces. Highly effective without acids, alkalis, enzymes, bleaches and surfactants. For mechanical and manual cleaning. Gentle on skin and low-foaming.

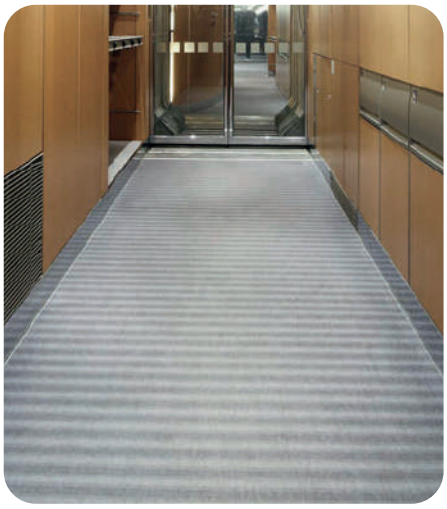

Box of 12 x 1 L
Order No. 00634
10 L canister
Order No. 60237

RAPIDO PROTECT
Carpet protection and carpet cleaner

Ready-to-use, 2-in-1 cleaning product for all colourfast and water-resistant textile floors. Loosens and removes carpet dirt, leaves behind a protective film with stain-repellent effect after cleaning.

10 L canister
Order No. 30868

RAPIDO KAUGUMMI EX
Solvent-free freezing spray

For removing chewing gum from colourfast textiles, upholstery and hard floors. Instant results. Chewing gum residue is hardened by the freezing spray and thus becomes easy to remove. Good material compatibility.

Box of 12 x 500 ml
Order No. 00112

RAPIDO KAUGUMMI-ENTFERNER
Liquid chewing gum remover

For removing old, hard chewing gum residue from textile floor coverings, natural and artificial stone or elastic hardwood floors. No freezing. Softens and dissolves chewing gum residue. Allows fast removal of chewing gum residue.

Box of 6 x 500 ml
Order No. 00180

Sanitary areas.

Building trust through tangible freshness

Clean, hygienically flawless sanitary facilities are the flagship of all public buildings, including local and long-distance public transport. Cleanliness and hygiene must not only be seen, but also smelt - particularly in sanitary areas.

Our cleaning products for sanitary facilities on transport offer effective, hygienic solutions to ensure optimum cleanliness and freshness while on the move.

MILIZID
Sanitary cleaner and descaler

Highly concentrated liquid solution. Removes mineral and organic dirt. For effective cleaning of all acid-resistant materials in sanitary facilities and wet rooms. Effective without mechanical processes. Shines without the need for polishing.

Box of 12 x 1 L
Order No. 00104
10 L canister
Order No. 30007

MILIZID KRAFTGEL
Acidic sanitary basic cleaner

For deep cleaning of sanitary facilities and wet rooms on all waterproof, acid-resistant surfaces. Removes mineral dirt as well as skin grease and cosmetics. Free from phosphates and hydrochloric acid.

Box of 12 x 1 L
Order No. 00270
10 L canister
Order No. 30227

LAVIDOL
Sanitary cleaner

Removes grease, organic dirt and water stains in sanitary facilities and wet rooms on all waterproof surfaces, particularly materials sensitive to acids. Limescale protection formula prevents dirt build-up on surfaces.

Box of 12 x 1 L
Art. Nr. 00236
10 L canister
Order No. 30038

MILICARIBIC
Scented concentrate

For eliminating unpleasant odours in sanitary facilities and wet areas, offices, recreational rooms, changing rooms, canteens. Strong fragrance, effective even in small quantities. Available in 2 inspiring fragrances.

Box of 12 x 200 ml
Order No. 00257

DESIFOR-SD
Acidic surface disinfectant

For disinfection of acid-resistant surfaces in food preparation areas, industry, public buildings, spas, swimming pools and sanitary facilities. Removes limescale and grease. Bactericidal (including MRSA) and yeasticidal. Limited virucidal (including HIV, HBV, HCV and influenza).

Box of 6 x 500 ml (spray top incl.)
Order No. 20465
Box of 12 x 1 L | Order No. 20467
10 L canister | Order No. 20468

→ Prevents toilet downtime on public transport

→ Increases maintenance intervals, reduces operating costs

→ Compatible with protec bioReactor

→ Approved at GLOVA RAIL, dowaldwerke

MILIZID FLUSH&GO
Innovative flush additive for vacuum toilets

Acidic cleaning additive for use in closed vacuum toilets in railway vehicles. Automatic dosing with every flush cycle. Dissolves and prevents poorly soluble deposits such as lime-scale, urine and manganese dioxide in toilet bowls and pipes. Non-biocidal. Economical to use.

Box of 4 bags à 2 L
Order No. 00116

Kitchen and bistro.

Safe and efficient food-related processes

Today, buffet cars and on-board bistros are part and parcel of travel culture. Passengers want to feel comfortable and enjoy their journey. Hygiene and cleanliness are particularly important in this area. After all, food production areas need to meet the highest standards as even minor deviations or errors can negatively impact consumer health. DR.SCHNELL provides the perfect product solutions for working in accordance with HACCP regulations, cleaning work in the utility room, bistro kitchen as well as cold and materials storage. We ensure safe, economical processes when it comes to food.

GASTRO PUR ECO
Ecologic oil and grease remover

Effortlessly removes grease/ oil residue and food remnants from all washable work surfaces, machinery, equipment, and tiled surfaces. Waste-water-optimised, quickly re-emulsifying in the grease and oil trap. Chlorine- and phosphate-free.

Box of 12 x 1 L
Order No. 36904
10 L canister
Order No. 36907

PEROCID
Limescale remover

Effortlessly removes limescale, rust and cement residue from all acid-resistant surfaces such as stainless steel, chrome, porcelain, tiles, colourfast plastic and glass. Works without any additional mechanical action. Also available as Ecolabel version.

Box of 12 x 1 L
Order No. 00615
10 L canister
Order No. 36017

ATTILA EXTRA STARK
Intensive power cleaner for burnt-on residues

For fast, reliable and intensive cleaning of heavily soiled appliances and work utensils in kitchens. Efficient and spontaneous dissolving capacity for rapid results. Powerful and good adhesion for intensive cleaning. Easy to apply.

1 L bottle
Order No. 00230

PEROFROST
Deep freezer cleaner

Excellent cleaning performance. High germ reduction. Material compatibility with metal protection (stainless steel). Low consumption. No defrosting required.

1 L bottle
Order No. 30126

Disinfection.

No chance for germs

Regular surface disinfection prevents the spread of pathogens, which can survive on surfaces for months. DR.SCHNELL's surface disinfectants break the chain of infection, reduce germs, and are VAH-listed and HACCP-compliant. Good hand hygiene also provides effective protection against pathogens. DR.SCHNELL hand sanitizers protect your hands and your health. Note: The disinfectants shown may vary depending on country-specific approvals; we would be happy to advise you personally on this matter.

DESIFOR-QUICK
Surface disinfection

For residue-free, rapid disinfection of alcohol-resistant surfaces. Bactericidal (including MRSA) and yeasticidal. Limited virucidal (including HIV, HBV, HCV and coronaviruses). Aldehyde-free. Free from fragrances and colourings.

Box of 6 x 500 ml, (2 spray tops incl.)
Order No. 00521
Box of 2 x 1 L (2 spray tops incl.)
Order No. 20522
5 L canister
Order No. 20451

DESIFOR-QUICK WIPES
Surface disinfection wipes

Certified, biodegradable wet wipes for residue-free, rapid disinfection of alcohol-resistant surfaces. Bactericidal (including MRSA) and yeasticidal. Limited virucidal (including HIV, HBV, HCV and coronaviruses). Aldehyde-free. Free from fragrances and colourings.

Box of 12 Softpacks x 80 Tissues
Order No. 20610

DESIFOR-SD
Acidic surface disinfectant

For disinfection of acid-resistant surfaces in food preparation areas, industry, public buildings, spas, swimming pools and sanitary facilities. Removes limescale and grease. Bactericidal (including MRSA) and yeasticidal. Limited virucidal (including HIV, HBV, HCV and influenza).

Box of 6 x 500 ml (spray top incl.)
Order No. 20465
Box of 12 x 1 L | Order No. 20467
10 L canister | Order No. 20468

DESIFOR PLEXIFEE
Alcohol-free surface disinfectant cleaner

For the disinfection and cleaning of water-resistant surfaces and floors. Bactericidal (incl. MRSA) and levurocidal. Limited virucidal (incl. HIV, HBV, HCV, coronaviruses). Limited virucidal PLUS (incl. rota-, noro-, and adenoviruses). Also suitable for use on acrylic glass. Hazard label-free (per GHS).

Box of 20 x 500 ml (spray top incl.) |
Order No. 20593
10 L canister
Order No. 20594

Workshop & Maintenance.

Every detail matters

Workshops and maintenance facilities face demanding cleaning tasks every day. From oil-contaminated floors and soiled work surfaces to the cleaning of machine parts and components – our products are specifically developed to meet the demands of technical working environments. They deliver cleanliness, safety and efficiency – both in routine maintenance cleaning and during intensive servicing operations.

FORTE PLUS
Dirt breaker for industry, workshop and maintenance

For machine and manual maintenance and intensive cleaning of all alkali-resistant surfaces and floor coverings in industrial and workshop settings. Material-friendly formulation with integrated corrosion protection. Low-foaming – ideally suited for cleaning machines and high-pressure equipment.

Box of 12 x 1 L
Order No. DRS01650
10 L canister | Order No. 30847
200 kg barrell | Order No. 30848

CLEANMOTION WERKSTATTREINIGER
Alkaline oil and grease remover

For the fast and thorough removal of oil, grease, soot and dirt build-up on equipment, machinery, tools, work surfaces, workbenches, components, and workshop and production floors. Readily biodegradable and separator-friendly. With corrosion protection.

Box of 12 x 1 L
Order No. 31919
10 L canister | Order No. 31920
200 kg barrell | Order No. 31922
1.000 kg container
Order No. DRS00062

CLEANMOTION AUTOSHAMPOO
Neutral car shampoo

For manual and machine exterior cleaning of motor vehicles of all types, as well as for the gentle cleaning of sensitive parts and individual components. Neutral, low-corrosion formulation.

10 L canister
Order No. 31935
20 L canister
Order No. 31936

CLEANMOTION FLECKENWASSER
Ready-to-use stain remover

For the effortless removal of greasy and organic residues such as cosmetics, oil, ink, paint, tar, and wax from all solvent-resistant surfaces and textiles. Also ideal for removing stickers and labels. Solvent-based and residue-free.

1 L can
Order No. 31910

CLEANMOTION SCHEIBENKLAR
Ready-to-use glass cleaner

Reliably removes smear films and oil and grease residues from all glass surfaces. Also suitable for use on paint, plastic and metal. High material compatibility. Streak-free cleaning results.

Box of 20 x 500 ml (spray top) | Order No. 31930
Box of 12 x 1 L | Order No. 31931
10 L canister | Order No. 31932
200 kg barrell | Order No. DRS00504

KLARSICHT365
Neutral all-season windshield cleaner with frost protection

Ready to use, for year-round use in automatic windshield washer systems. Removes insect residue, grease, and environmental grime from the windshield. Frost protection down to at least -30°C. Gentle on materials and hazard label-free.

10 L canister | Order No. DRS01444
200 kg barrell
Order No. DRS01445
1.000 kg container
Order No. DRS01446

CLEANMOTION HANDWASCHPASTE H
Hand cleaning paste with abrasive agent

For thorough yet skin-friendly hand cleaning in industry, workshops and trades. Removes even heavily ingrained dirt right down to the pores, using a gentle natural abrasive. Free from microplastics. Sand-free, does not clog drains.

10 L bucket
Order No. 31915

Training and Service.

Personal contact, trustworthy collaboration

Customer satisfaction is our main priority. The DR.SCHNELL service principle expresses our self-awareness as your partner. This includes a broad range of knowledge, expertise and easy access to your personal contact as well as certified theoretical and practical training.

We comprehensively support you so that you can take responsibility for cleanliness and hygiene in your field of work at all times. Our goal is for you to be able to use DR.SCHNELL products easily and safely in an environmentally friendly, sustainable and economical fashion.

Our service offer:

- → Personal support from national key account managers and application engineers, as well as regional product specialists
- → On-site analysis and concept creation for optimum cleaning processes
- → Ensuring the preservation of vehicle and infrastructure through sustainable product solutions
- → Cost control with concentration measurements of the detergents used on-site
- → Support with special cleaning and problematic cases
- → Theoretical and practical training on special topics such as graffiti removal and interior/exterior vehicle cleaning
- → Practical training and continuing professional development, delivered on-site by ALEGRIA and online via the DR.SCHNELL CAMPUS

We're here for you – ONLINE & ON-SITE!

Our training company ALEGRIA offers training and further education courses throughout Germany – including for managers – in many areas ranging from facility cleaning to food hygiene. From legal regulations and the latest developments to instructions for professional employee training and the implementation of hygiene and HACCP concepts. Tailored to your specific requirements.

The DR.SCHNELL CAMPUS empowers you to become a hygiene expert through self-directed e-learning – available in 17 languages! Employees can learn directly at their workplace and at their own pace, with digital proof of completion always at hand. Through our intuitive e-learning modules, you will learn how to use our premium quality products safely, efficiently and cost-effectively.

Change starts today.
For a better tomorrow.
